

## Student Support Services

The Vancouver School of Art is committed to supporting all students in their art endeavours and the fulfillment of their goals.

Every effort will be made to accommodate students' schedules and time limitations; our aim is to provide students the opportunity to reach their artistic objectives on a part-time as well as full-time basis. Our Program configurations and requirements reflect this purpose.

Student support services at the Vancouver Island School of Art are as follows:

- Availability of faculty members and the Director on an ongoing basis, during class time and outside class time as needed for consultation and counsel regarding students' objectives, program planning, course recommendations, specific concerns regarding course content and progress.
- Office support staff for assistance with program planning, registration, and financial advising.
- When not occupied, the classroom is available for student use.
- Library facilities are available to all students during school hours, making current and diverse research materials easily accessible.
- Fridge and kettle are available for student use.
